

170L NDB5 WELDED HOLDALL

The NDB5 Welded Holdall 170L is a rugged and spacious gear bag designed for durability and versatility across outdoor and professional scenarios. Crafted from 210D nylon TPU with high-frequency welded seams, this bag is built to withstand tough conditions. With a massive 170L capacity and a single compartment, it easily accommodates bulky gear, making it a favorite for divers, military, rescue teams, and outdoor adventurers worldwide.

Equipped with three lifting handles, removable alpine-cut padded shoulder straps, and webbing attachment points along its sides, the NDB5 ensures easy transport and organisation. An included welded inner bag made from 420D nylon TPU with 2-way splash-proof zips offers extra protection for keeping clothes or essentials dry. Custom logo options are available upon request.

FEATURES

- Spacious main compartment with D-zip splash proof zip opening
- Internal welded seam construction and x3 mesh pockets
- Comfortable top-mounted handle and x2 haul handles on ends
- Alpine-cut padded shoulder straps, adjustable and removable
- Equipment loops running down both sides of the bag
- ID pouch on the front of the holdall, washable inside and out
- Changing mat storage straps (changing mat can be sold separate)
