4-WINDOW MASK BLACK

The Four Window Dive Mask features a unique twin split lens design and four-window construction, providing an exceptional panoramic field of vision for improved underwater awareness. Its discreet all-black design makes it ideal for military, tactical and professional diving applications.

Manufactured with durable tempered glass lenses and a high-quality surgical-grade silicone skirt, the mask delivers excellent optical clarity, a comfortable fit and a secure seal. Designed for reliability in demanding environments, it is suitable for scuba diving, rescue operations and professional underwater use.
