

AQUAPAC 214 'STORMPROOF' WATERPROOF VHF RADIO CASE

Protect and carry your handheld VHF radio with ease using this stormproof shoulder strap case. Designed for use in rain, mud, snow, and spray, it keeps your radio accessible and safe in demanding environments, including boating, kayaking, and outdoor operations.

KEY FEATURES

- Clear window: allows full operation of the radio without removing it from the case.
- Integral shoulder strap: buckled design allows quick-release carrying.
- Durable roll-down seal: protects the radio from rain, mud, spray, and other elements.
- Stormproof protection: IPX6 rated — withstands powerful water jets from all angles through a 12.5mm (0.5") nozzle.

SPECIFICATION

Weight – case 39g (1.4oz)
