

AQUAPAC 239/240

TRAILPROOF VHF PRO

This case features a ziplock seal instead of an Aquaclip. The most trusted waterproof VHF cases on the market, since 1983.

FEATURES

- 2 lash points for you to attach a harness or shoulder strap
- The clever antenna design not only fits L- and R-handed radios but also creates an emergency grab handle
- Talk and hear as normal
- Protection against water, dust, corrosion, sand and mud
- It's submersible and secure thanks to its quick and simple ziplock seal
- Supplied with an adjustable shoulder strap
- Floats on water
- IPX7 - protected against immersion for 30 minutes to a depth of less than 1m (3')
- This case will fit most modern VHF radios
