

144L PRO-SAFE HOLDALL KIT BAG

The Pro Safe Bag is a rugged 144L equipment holdall designed for transporting and protecting diving and watersports gear. Constructed from durable red Cordura® with a PVC backing, it features a huge main compartment, heavy-duty all-terrain wheels and reinforced base protection for reliable use in demanding environments.

Additional features include zipped side and top compartments, reflective side panelling, padded carry handles and 316 stainless steel saltwater-resistant D-rings for secure attachment and towing options.

FEATURES

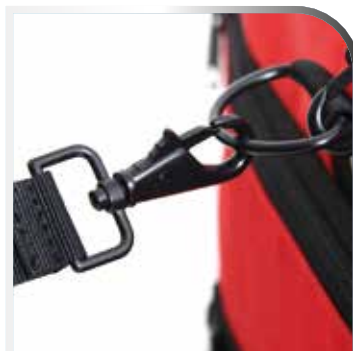

- Durable red Cordura® construction with PVC backing
- Large 144-litre storage capacity
