

PRO-THROW BAG WITH FLOATING REFLECTIVE LINE

A small and compact throw line with 9mm high quality polypropylene floating rope.

Lengths available: 20m & 25m

It's small size allows for the Pro-Throw Bag to be easily stored in a boat or on your person for quick deployment in reach rescue situations.

The specially designed wide opening on the bag helps with quick access and easy re-packing. This bag is an absolute necessity on the water, a dependable and tough throwline. The bags shape ensures a long and accurate throw with the ability to recover and re-throw if target is missed.

- Compact design
- Rapid drying time
- Great for use at night
- Includes quick release guide belt

Conforms to the H&S requirements stated in Annex II of the PPE Directive 89/686/EEC
