

# SEARCH AND RESCUE WETSUIT

Consists of long john and shortie wetsuits, which both have a Kevlar® coated seat area and chest zip. These garments can be worn separately.

Manufactured from a high visibility red 4mm neoprene. Frequently used for helicopter search & rescue operations & training.

Includes separate wet hood. Features torch pockets that house lighting equipment used by SAR and military divers.

- Manufactured from a 4mm super stretch highly visible red neoprene
- Easy to don and doff with speed
- Protective scratch pad seat area on both wetsuits
- Pre bent arms with scratch pads

Sizes: S, SW, M, MW, MEW, L, LW, XL, XLS, XXLS, XXLES  
( W = WIDE, E = EXTRA, S = SHORT )
